

### Our Mission

We're a nonprofit cybersecurity organization protecting vulnerable institutions — especially small schools, churches, and community-based businesses. We offer free and low-cost services to strengthen digital safety without stretching tight budgets.

### What We Offer

- Cyber Risk Assessments
- Staff Training (phishing, password safety, backups)
- Incident Response Plans
- Basic Compliance Guidance

### Who We Help

- Faith-based and private schools with limited IT staff
- Churches and nonprofits at risk of online scams
- Local businesses without cybersecurity resources

### Get in Touch

Let's talk about how we can help your organization. Schedule a free consultation or request training today.
